Best Faculty: Harvard +MIT+BU+ professional training

Modern Techonology: classrooms with computer, projector,

#### Afterschool Program (K-G6)

Our Afterschool Program runs from 3 pm to 6 pm, Monday through Friday, and provides homework tutoring, Mandarin/ Cantonese, and various Chinese culture clubs and activities to all the students. We also offer our students free healthy snacks every day. All the classes are taken care of by one experienced adult homeroom teacher and two to three TA's, most of whom are college students. For students who are newly immigrated to the US and need help with their oral or written English, we organize small classes for them which are taught by native English speaking teachers. Every Friday afternoon, we have five clubs for the students, Martial Arts and Lion Dance Club, Cooking Club, Origami Arts Club, Leadership and Chinese Literature Club, and Story Telling Club. We will also organize a Chinese Cultural Day & Parents/Students celebrating party/Students Birthday Party at the end of each month.

#### Weekend Programs(K-G12)

Weekend Programs includes Mandarin/ Cantonese Classes for students from Kindergarten to Grade 9, all of which are taught by very experienced and highly qualified native Chinese speaking teachers. We also offer numerous Chinese culture classes, including Drum and Dulcimer Class, Chinese Painting Class, Chinese Traditional Dance Class, and Chinese Martial Arts Class. From Fall 2009, we collaborated with Newton Learning Center to hold %6-Age English and Math Program+to meet the needs of students who need help with their MCAS, ISEE, and SAT I & SAT II. Meanwhile, KKCS cooperated with the Ip Piano School to hold the Violin class to serve the students who are interested in the Western music since September 2009.
